Expert Examines New Death Threat Notes

MRS. LOUIS FINANSKY.

New blackmail letters threaten-
ing death to Mrs. and Mrs. Louis
Finansky of No. 110 Clark street,
Monday, as the grand jury for failure
to pay \$1,000 were examined today
by a handwriting expert in the ad-
vice of Assistant District Attorney
Robert Bushman of Middlesex County.

Compartments of the Finanskys' let-
ters with those received by two
Cambridge women and with letters
written by Hyman Nathanson, 27
Cambridge, were made by the pro-
secutor and his staff.

The development in the blackmail
letter case followed announcement
by Mr. Bushman that he would sum-
mon a Cambridge man before the
grand jury on the charge of "conspiracy
to defraud" and "obstruction of justice."
The letters, which were received by
Mrs. Finanskys, were written by
John Joseph Asser, Governor of Ber-
muda.

JOHN JOSEPH ASSER.

Asser, Bermuda, Jan. 16.—John
Joseph Asser, Governor of Ber-
muda, delivered an address of wel-
come to visiting American politicians
at the Hamilton hotel.

The dinner marked the presenta-
tion of a charter to the Bermuda
Rotary Club.

Leaves Teeth Behind as He Hurries From Police Cell

Cambridge, B. I. Jan. 16.—Arthur Murray of Boston, locked
up by the police here, while in
the cell refused his teeth, and
when released forgot to take
them. Chief of Police Nathan
this was reported to, but was
unable to locate the teeth.

Rotarians in Bermuda

Hamilton, Bermuda, Jan. 16.—John
Joseph Asser, Governor of Ber-
muda, delivered an address of wel-
come to visiting American politicians
at the Hamilton hotel.

MORE EDISON PROFITS EXPOSED

Girl, Slayer of Mother, Is "Life of Party in Jail Spring Lock Maroons Child on Piazza Till Rescued

SHIRLEY KATZ TAKEN DOWN LADDER

Three-year-old daughter of Mrs. Anna Katz of No. 213 Chelsea street, Chelsea, stepped out on the year
piazza closing a spring lock door behind her. Her mother was out shopping and a neighbor called the fire
department to take the treacher girl down by a ladder.

AGAIN FAIL TO HAUL S-19 TO SAFETY

Failure of the latest attempt to
haul the stranded submarine S-19
from the sands off Naumet Beach
resulted in the pumping of fuel oil
from the tanks to lighten the craft.
Work was then discontinued until
Monday, when another effort was
to be made by the salvage tug.
The tugboat, under the command
of Lieut. Comdr. C. P. Martin, in com-
mand of the submarine, was brought
to the beach under way.

Chelsea Firemen Take Little Girl Down Ladder After She Is Shut Out

Three-year-old Shirley Katz
was rescued by firemen when
she shut herself on the piazza
of the third-floor apartment at
No. 213 Walnut street, Chelsea.
During the absence of her mother,
Mrs. Anna Katz, the child went out
to the piazza. The door slammed be-
hind her and the spring lock caught.
Imprisoned in the cold, tightly shut
door, she began to cry. Mrs. Katz,
just down the street, heard the
screaming and, fearing what had hap-
pened, notified the fire department.
In a few minutes the apparatus
arrived and a ladder was run up to
the piazza and the child was
rescued. She was carried to the
street. She was cured by her neigh-
bors until the return of her mother.

BOY COASTER KILLED IN CRASH

Coasting, claimed another victim
in Boston today, when Andy Van
Valkenburg, seventeen years old, of
No. 71 Spring Park avenue, Jamaica
Plain, died at the City Hospital
from injuries received when he slid
and crashed into a telephone pole on
Rockview street, Jamaica Plain.
A companion, who was on the
coaster with him, John Haggard,
eight years old, of No. 1 Whiston
square, Jamaica Plain, is in a seri-
ous condition at the City Hospital
and may die. Both boys suffered
fractured skulls and the Van Val-
kenburg had received severe lacerations
of the face and a broken col-
lar bone.

MRS. HART GETS RIGHT TO RETURN TO MOVIES

Los Angeles, Jan. 16.—Whitney
Wentworth Hart has won the right to
resume her career as a motion picture
actress.

William R. Hart, twogen man of
the screen and estranged husband,
was defeated in his attempt to keep
the mother of his two-year-old son
from again taking up acting when
Judge Denham ruled that their separa-
tion agreement was illegal.

Testimony will be begun today to
decide whether or not Mrs. Hart
may continue to use income from
the future earnings of her son, who
Hart treated for her and Wil-
liam, Jr., their son.

A. LINCOLN FILEN IS HEAD OF COMMITTEE

A Lincoln Filene of Boston has
been named chairman of the trade
relations committee named by the
national conference of the National
Retail Dry Goods Association, which
was held in Washington. The committee is
one of six appointed to conduct a na-
tional investigation of merchandising
and distribution conditions, and
of its largest problem will be the
selection of some means to obviate
duplication of statistical data by
trading associations. Dr. Melvin T.
Finkle, director of the Harvard
Business School, was named chairman
of the distribution committee.

TOMB ANTIDATING KING TUT RULE UNCOVERED

London, Jan. 16.—American ex-
perts in Egypt have unearthed a
tomb that antedates the famous
tomb of King Tutankhamun
by 4,000 years.

The find includes a system of pas-
sageways as well as a tomb and is
attributed to the third dynasty pe-
riod. It was discovered at Sakkarah,
in the neighborhood of the step
pyramid of King Djoser. The find
is described as a statue of
King Djoser, who reigned at the be-
ginning of the Egyptian history.

Legion Post Dines

The Overseas Legion of the
American Legion, composed
of newspaper and advertising
men, held its twenty-fourth
annual dinner at the Hotel Lorraine, Can-
nel, N. Y., last night.

SALE At Kennedy's The Live Store STARTS TODAY at 12:30

(Open Until 9 O'Clock Tonight and Saturday Night)

Because of Last Tuesday Night's Smoke Damage

Our Entire Stock of Over 21,000 Suits and Overcoats

Along With All Hats, Furnishings, Shoes, Trousers, Boys' Clothes, etc.

Must Be Cleaned Out Completely

(No water damaged goods included in this Sale)

Last Tuesday evening there was a four-alarm fire in the premises occupied by a furniture company over our store. Naturally our stock was somewhat damaged by water and smoke, but due to our tightly closed glass cabinets and more especially to the splendid efficiency and extreme care of the Protective Department, the damage to our stock was small under the circumstances.

The Insurance Company has made a prompt and just settlement with us. Our stock was already marked down for our Clearance Sale, and from the reduced prices already in effect we have deducted the full amount of the insurance allowed us.

What goods were damaged by water have been removed from the stock and will not be offered for sale at any price. The goods offered have suffered nothing more serious than smoke damage.

You don't have to come today or tomorrow if it isn't convenient. You'll be able to do just as well next week because a stock so large as this can't possibly be disposed of in a few days' selling.

In any event, you'll find your regular salesman here, and any extra salesmen required will be brought in from our other stores, so you're assured of just the same courteous, careful Kennedy service as always. These goods are going to be sold RIGHT.

Blue and black suits, Full Dress and Tuxedos all marked at drastic reductions.

**Everything in Every Department of the Store
Is Included in this Sale Without Any Exceptions
Everything Must Go in a Quick and Positive Clearance**

SCIENTISTS TO SPEND FORTUNE ON ECLIPSE

Savants Will Have Only Two Minutes and One Second on Totality Test

New York, Jan. 15.—Although they will have only two minutes and one second in which to work as quickly, scientists of renown from various parts of the world will devote considerable money and time to come here to study the eclipse of the sun on January 24. The vanguard of these foreign scientists arrived today from Bermuda. The group, known as the Bermuda Government Eclipse Expedition, is headed by the Rev. Donald B. Marsh, of Hamilton, Bermuda. A member of the Royal Astronomical Society. He is accompanied by his wife, who is an expert mathematician. He also, John, a photographer, and A. B. Gaunt, an astronomer.

TO MAKE PHOTOS

They brought six cases of cameras and instruments and expect to take pictures during the eclipse. Their observations will be made from the campus of Yale University.

By coordinated expeditions of members of the Illuminating Engineering Society and members of the and other laboratories will take measurements of the natural light during the eclipse in attempts to determine the illumination produced by the sun's corona, the brightness of the sky and the horizontal illumination at the point of observation.

Time tests will be made at Hamilton, Ont., Ilaco, N. Y., New York, Conn., Newburgh, N. Y., Poughkeepsie, Conn., and Greenport, N. Y.

TO USE 4 PLANES

Four De Havilland observation planes flying at an altitude of 15,000 feet or higher, will be used by the air service in recording and photographing the phenomena.

From one of these planes Major Bradley will radio his observations, which will be picked up by WZZ of Newburgh. For the benefit of those who may not be able to time

the plane will be fitted up with wire telescopes and other astronomical instruments.

In the third plane will be Lieutenant James H. Hedges, who will operate a special aerial camera, mounted with filters, which eliminate halation and excess light.

In the fourth plane will be a motion picture photographer, operating a camera with a long range lens as well as filters, in an attempt to make a complete motion picture history of the eclipse.

Diamond Rings

At Unusually Low Prices

Greatest Values in Diamonds Since 1914 in Anywhere in Boston

\$88—Snappy blue white diamond, set in fancy close-set green gold basket setting. A \$120 value.

KING-LAWSON FEUD TRUCE

Continued From Page 11.

The Peace of 1907

At the time of the feud, the King family was one of the most prominent in the city. The Lawson family, on the other hand, was a family of lesser prominence. The feud between the two families was a result of a dispute over a piece of property. The King family claimed the property, while the Lawson family claimed it. The feud lasted for several years and was a source of much trouble for both families.

The feud between the King and Lawson families was a well-known story in Boston. The King family was a family of great wealth and power. The Lawson family was a family of lesser wealth and power. The feud between the two families was a result of a dispute over a piece of property. The King family claimed the property, while the Lawson family claimed it. The feud lasted for several years and was a source of much trouble for both families.

Children! Here's Your Wagon!

A Brookside Coaster Wagon---and you can get it FREE.

The biggest, strongest, best-looking play wagon you ever saw---long and sleek and low hung like the thoroughbred speedster it is.

Made of toughest wood and sturdiest steel. Painted a handsome brown that won't wear off.

And, just think the Brookside Coaster Wagon has ball bearings, disc wheels and rubber tires, like a good automobile. So it's easy to push or pull.

Mother will tell you, when she sees it, that most stores would charge from \$10 to \$15 for a wagon as fine as this.

But you can get it FREE.

Then what fun you'll have---hauling little brothers and sisters around! And the useful fun, too, of carting mother's Brookside groceries from the Brookside Store.

They are the BEST groceries, as all people who use them know. Finest and purest quality.

Yet they cost less---because they are sold by the Brookside "Cash and Carry" plan---and because there are nearly 500 Brookside Stores, all under one management.

This means that Brookside groceries are bought by us in very big quantities---at lower prices. So we can sell them much cheaper than your mother would have to

pay elsewhere for groceries of equal quality.

But what you want to know right now is---

How you can get this wonderful wagon---FREE

Here is the way

Go into the nearest Brookside Store and see the wagon itself.

Then begin to save the entire label from every Brookside product listed at the right. They can be removed by soaking in water. Save the Brookside cartons as well. They count.

When you have 250 of these Brookside labels and cartons---send them to the John T. Connor Company, 44 Stillings Street, Boston, together with your name and address. Or leave them at the Brookside Store where you traded and get a receipt for them.

We will then instruct the manager of that store to give you YOUR Brookside Coaster Wagon.

Remember: This is no puzzle or game of chance. Every child who saves enough labels and cartons will own a wagon.

Start today. Get your wagon before Spring comes.

Save the labels and cartons complete from any of these many Brookside Products and get a wagon free.

NURMI SPEEDS TO CHICAGO WITH THREE NEW WORLD RECORDS

TO RETURN TO N. Y. TONIGHT

Julie and Moe got away to a poor start yesterday at Miami. The fully ran way below form and handed Moe his first setback of the week. Perry Nagel, the Freeport millionaire, slipped Moe the one he is banking today and says it will breeze home. Cash in hand, \$14,718.54.

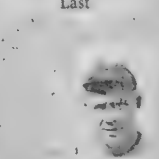

Moe and Joe They Get the Dough--Sometimes

MAPLES CLASH WITH STRONGER HOCKEY CLUB

TONIGHT'S FINES AT THE MAPLES. The Maple Leafs will meet the Montreal Canadiens at 7:30 p.m. The Leafs are expected to win.

American, to it faster
I think that I know how to
and "undiscovered land"
and me. I don't
me a horse. I bought
and made me drive it
and in death of them."

YOU have to be able to figure out a motorist's license number with your own eyes and mind.

IGNORANT people should take pains to be hit by automobiles with small numbers.

IT'S best to copy the license first and get run over afterwards.

A MAN should never cross the street nowadays unless he has a public stenographer with him.

IF you get struck by a machine she can take the number down in shorthand.

THEN all you have to do is figure out the number on the sliding machine before you leave the hospital.

IN addition to the letters and numbers, you have to learn how to state the automobile's make and the color of the license.

CONGRATULATIONS on your Future Graduate's Record.

(Feb. 20, 1933)

Marriage "Rain Checks"?

It Looks as Though We Are Coming to That

A charming, dashing young lady, married only one month, full of *verve, élan, chic, esprit, and temperament*, adds to all of these ingredients a dash of *romanticism*.

On her way from Chicago to Europe, via New York, the police, by special request, seek to stop her progress.

Indignantly the young lady says to the head policeman:

"You CAN'T arrest me. You have no warrant, and I am only running away from my husband."

ONLY running away from her husband, after one month of marriage. What becomes of the solemn words, "As long as you both shall live," to say nothing of "Love, honor and obey," and similar *vieux jeu*.

WHITHER ARE WE DRIFTING? No wonder a learned Judge of Greater New York, refusing to annul a marriage, says we are treating too lightly that ancient sacrament.

Tout passe, tout casse, tout lasse.

That's the motto of some young married people of today. Yet, in one solitary, peaceful moment, she gave birth to a son—ONLY ONE—but that one was Alexander the Great.

He made up for a great many make-dads and Eastern magicians in his accomplishments.

Let us, however, be not too much discouraged, or believe that the ship of marriage is going on the rocks quite yet.

We have many foolish people with us, we have ALWAYS had them. And foolish people marry foolishly without reflection.

And very foolish people, in their marriages and in other things would do badly, perhaps, whether they reflected or not.

And the strange and comforting fact is that sometimes the married lady with the greatest supply of *élan* makes the most wonderful kind of a mother when she settles down to business. If she settles down, very soon, to a husband, she will find that she has a quiet old lady in her.

Take that marvelous woman, Olympia, of the ancient days. When it comes to having your own way and cutting loose, she would make any dashing young Chicago lady look like a quiet old lady in her.

They didn't invent divorce in her day, but she invented things for herself. She did make dances with no clothes on. And when her husband, Philip, of Macedonia, saw with his very own eyes that she was not what she actually persuaded him that she was an Eastern magician whom he happened to fancy was a strange spirit from another world.

If you had an Olympia for a wife, daughter, or fiancée, you would want to jump into the Charles River.

Yet, in one solitary, peaceful moment, she gave birth to a son—ONLY ONE—but that one was Alexander the Great.

He made up for a great many make-dads and Eastern magicians in his accomplishments.

Men don't respect it, but looked up in each woman there is an amount of power that would make a man seem like a small, weak-legged gnu pig if it could all be turned loose and revealed.

The power in the atom that the scientists talk about is nothing compared with the power that Nature has stored up in woman.

The wonder is that she behaves so well, 999 times out of 1,000, and goes on her quiet way, allowing man to live and die convinced that HE is the superior being.

Under Influence of Liquor

What These Words Mean in Connection With the Drivers of Automobiles. They MAY Mean 6 Months

A decision handed down by the Supreme Judicial Court of Massachusetts on Tuesday will make it easier for prosecuting officers and the judges of inferior courts, working together, to remove the licenses of the drunken motorists.

Sentenced to six months' imprisonment in the House of Correction, after conviction for driving an automobile "while under the influence of intoxicating liquor," a resident of Lowell carried his case to the Supreme Court, on exceptions.

Here are some of the findings of the upper court which will be of interest to motorists who drink as well as pedestrians and SOBBER drivers who must dodge them:

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

"The Commonwealth was not required to prove that the defendant was DRUNK."

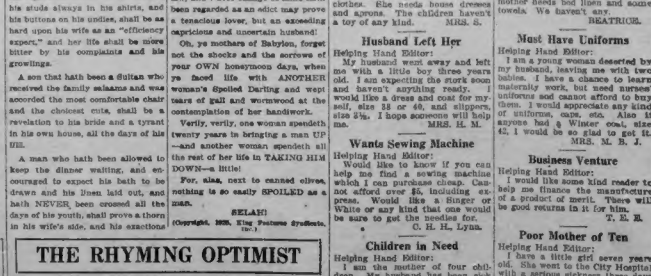

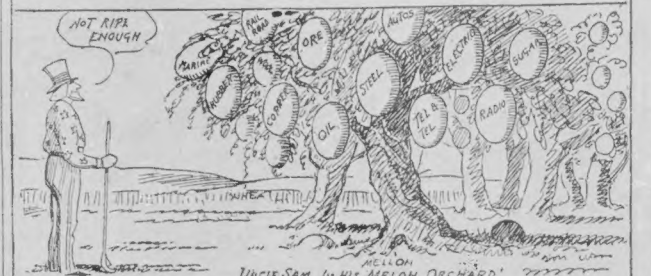

"The Commonwealth was not required to prove that the defendant was DRUNK."

GOOD THOUGHTS GIVEN US TO SHARE

By DR. FRANK CRANE

THERE is one commodity of which we have more than enough.

Whoever has a good and wholesome thought to share with another.

This will make him none the poorer, although it will make the other man much richer.

When you give something out of your purse, your supply has not materially decreased.

In fact, it has increased, for the more you give, the more you have.

Most troubles to which the human race is subjected from the wrong thought, and if you have a good and constructive one, it is your duty to give it.

We talk much in this world, and much that is of no meaning. It is merely repeating parables that we have heard from someone else. But if, out of your own experience, there has come something that is new to you, it may help another.

Giorno, I think, compares the process of giving to the business of lighting one candle from another flame is passed on, but there is no diminution of the supply.

Thoughts are given us, not to be hoarded, but to be used to run away with and hide, but to be used to enlighten.

And if we can find a man that is ready to receive them, a suitable occasion, there is nothing more pleasant than giving them.

Every thinker ought to be a talker. Of course, he should select his time to talk and the person to whom to talk, but the more he expresses his thoughts clearly to others, the more he becomes, and the more helpful he is.

The great men of the race have not always been great thinkers. They have been those who expressed their thoughts in such a way as to pass them on to others. They have been the great communicators.

ON THE ROAD TO SYNTHETIC GOLD

By Garrett P. Servis,

Noted Author and Writer on Scientific Topics of Popular Interest

NOTWITHSTANDING the announcement that Dr. Hannu, of the Berlin University, has confirmed the transformation of mercury into gold, which was reported by his colleague, Professor Alchemus, some months ago, Alchemus and his colleagues in this country appear to remain unconvinced.

They do not affirm that the transformation is impossible—far from that, they say that it is possible; but they point out that the Berlin experimenters obtained only the barest traces of gold, and that these might be explained by the fact that, practically always, traces of gold are found in mercury.

Another criticism is that the amount of mercury employed by Professor Hannu was too small to permit of the transformation of any appreciable amount of gold into silver.

These criticisms are not without merit, but they do not seem to have convinced the Berlin experimenters, who are now working on the problem with renewed vigor.

It is true that the transformation of mercury into gold is a process that has been known to man since the earliest times, but it is also true that the process is one that has been known to man since the earliest times.

It is true that the transformation of mercury into gold is a process that has been known to man since the earliest times, but it is also true that the process is one that has been known to man since the earliest times.

It is true that the transformation of mercury into gold is a process that has been known to man since the earliest times, but it is also true that the process is one that has been known to man since the earliest times.

It is true that the transformation of mercury into gold is a process that has been known to man since the earliest times, but it is also true that the process is one that has been known to man since the earliest times.
